ISPECIAL TO THE EVENING WORLD. GUTTENBURG RACE TRACE, March 26 .-A very large crowd of race-goers visited the Guttenburg track to-day. An excellent card had been prepared by Secretary Whitehead and several of the events promised exciting

The handleap at five furlongs brought out Badge, Logan, Mohican, Servus, Ballarat, Rancocas and other speedy sprinters. Rambler and Prince Howard promised a rare ducl, and the jumping race brought out some good hurdlers, including Futurity and Westmoreland.

The track was in excellent shape and in fairly fast condition.

The weather was warm and pleasant. Secretary Whitehead was presented to-day with a handsome split second gold watch and chain by the Board of Free Horse Owners as s slight token of the appreciation of his valuable services in their behalf. A diamond locket bung from the chain.

The opening event brought out a poor lot. Churchill Clark so far outclassed the others that he was an odds-on favorite. He won easily enough.

It appears that District Assembly 281, Knights of Labor, representing that branch of the industry in New York City and the local union of the United Garment Workers of America are constantly clashing.

Commissioner Donovan sees no reason why any firm should be restricted to employing union men while these organizations fail to come to an agreement for their common good.

Mr. Donovan also determines that the firm shall not discriminate in the employment or discharge of its men against the members of the two organizations named. Both the firm and the employees agreed to abide by Mr. Donovan's decision in this matter.

Cook returned to the stand to weigh out when Secretary Whitehead found that he was four pounds over and above his declared over weight. The matter was promptly referred to the judges and the boy's actions, when questioned, aroused suspicions that all was not right. Nothing was found in the saddle which would account for the overweight and young Cook was taken to a room and his clothes scarched. Mr. Carr did the searching and he di-covered that the boy wors an electric battery around his waist. Further investigation showed that two wires led from the battery to the spurs on the boy's boots.
